

Welcome to 4th grade!

WATER BOTTLES AND SNACK DAILY

Water bottles: Students are encouraged to bring a water bottle each day. Water keeps us hydrated and helps learning. Also, we do not have a water fountain in the classroom. Only request is WATER ONLY, please! Otherwise, they will be asked to keep it in their cubby till snack and/or lunch time.

Snack: Your child will have a time to enjoy and re-energize with a snack each day. Please send in a healthy snack each day!

If you have not been, please begin practicing your multiplication facts before school starts. There are many websites and free apps to enjoy, while getting ready for school. Memorization of your multiplication facts is extremely important in 4th grade! As we will be going into multi-digit multiplication, long division, fractions, and more! Thank you!

I hope you are having a great summer so far and are ready to get back to school **soon!** I'm looking forward to meeting each and every single one of you. I am confident WE will have a fantastic year! I have been busy planning lessons and activities that will challenge you to grow both academically and socially.

If you have any questions, please feel free to email me at mruane@madisoncentralny.org. Have a great remainder of the summer!

Can't wait to see you on
Thursday, September 7th!

Sincerely,
Mrs. Melissa Ruane
